COIL SPRING SPACER

Adjust trim to set ride height and wedge in car

- For 5" or 5-1/2" springs
- I.D. open for stock mount racing shock location

BRP5152

ADJ. COIL SPRING SPACER

Allows 2" range of height adjustment when fitting 5" or 5-1/2" springs into stock stub cars.

- Acme threads for high strength
- Trim sleeve for initial fit

REPLACEMENT NUT

BRP5151B

BRP5151

REAR SPRING SEAT

Mounts conventional coil spring on rear axle tube.

BRP5156

COIL SPRING BUCKET

Installs in frame so that racing springs and weight jacks can be used. Works with any 1-1/8" SAE jack bolt.

BRP5157

WEIGHT JACK

Made for use in conventional spring type cars using 1" coarse weight jacks.
